

Diana Moldovan

Microsoft SQL Server freelancer

Bucharest, Romania (UTC + 3)

diana_moldovan@hotmail.com

Objective

My goal is to provide to my customers the right solution, according to their requirements, upon the timeframe agreed, for an affordable price. In order to reach it, I strive to always keep my knowledge up to date.

I'm seeking a challenging work environment where I can provide meaningful help and keep growing professionally.

Work experience

I'm working as a developer and consultant for i-com.ro Servicii Internet SRL (www.i-com.ro). I'm also taking assignments as a freelancer, on upwork.com and freelancer.com.

My 10+ years of experience includes:

- working with MS SQL Server 2000, 2005, 2008, 2012, 2016, 2019 as both database developer and DBA
- TSQL programming
- performance tuning
- ongoing database maintenance and administration
- report development with Reporting Services and Report Builder / Visual Studio
- ETL with SSIS, bcp and TSQL scripts
- MS SQL Server installation and upgrade
- Powershell for SQL Server
- programming database centric applications with ADO .NET 2 using C#
- writing articles for www.mssqltips.com. Please see my profile at <https://www.mssqltips.com/sqlserverauthor/59/diana-moldovan/>

Prior to specializing in MS SQL Server, I've been a .NET (C#) developer for ~ 5 years. Much of my work consisted in customizing ASPDotNetStorefront (<https://www.aspdotnetstorefront.com>) installations for my customers.

Education

University of Bucharest

Bachelor of Applied Science, Physics
